# SCHUBERT

## and the sound of memory

*Borders evaporate and improvisation builds bridges between works, creating a sensation of hovering free in the air: like birds* —Svenska Dagbladet

Music is the temporal art par excellence, gaining immediacy from its irresistible transience. As the clock ticks, music draws us towards the future, prompting us to look ahead. But music also recalls us to the past, inspiring memory and a sense of history. Last year we celebrated the forward-striving music of Beethoven. The 2020 edition of Festival O/Modernt is dedicated to a composer whose music is imbued with the remembrance of things past: **FRANZ SCHUBERT**. And just as Schubert's music evokes the **SOUND OF MEMORY**, so Festival O/Modernt 2020 marks its tenth anniversary by recollecting and celebrating ten years of its own history.
